**OCTOBER 2018**

## STEERING COLUMN

**Steve Ducharme**  
Regional Executive

In September, the club engaged in its widest array of activities in a long time. The month started with the largest Solo Nationals to date, an 8-day series of high-level autocross competitions, featuring club members winning several championships and trophies. We hosted a successful new Thursday Evening party in the Game of Cones theme, and featuring music and food and drink. Many thanks to Mark Walker for making that work, on top of managing the highly successful test and tune course.

A week later, the club trailer and several members took part in the Boxers at Baxter festival at Baxter Subaru in Omaha. The feature attraction was a Subaru team rally car that was on display at Baxter on Saturday and on Sunday at the RallyCross event at I-80 Speedway. This was all coordinated by RallyCross Chair and Baxter Subaru Star Delivery Specialist Mike Lovejoy. Mike seemed to be everywhere that weekend – building the course at I-80, running the festival at Baxter, and then managing and competing in the RallyCross event.

Next came the club race and time trials at Raceway Park of the Midlands, sponsored jointly by Nebraska Region and Des Moines Valley Region (DMVR). The weekend was a success, with nearly fifty entries in all, about half in the club races and half in the time trials. I was thrilled to compete in the time trials, which also capped off the Midwest Division Time Trials series. The event's success was due to many, many members of our two clubs, especially organizers Erich Pfalzgraf, Monica Shaw, and Tara Box-Walker of DMVR and Candy Gerber and Kevin Kopecky of Nebraska Region.

The final week of September featured the Tire Rack Street Survival Driving School, which teaches practical defensive driving and emergency handling skills to teens and young adults. A big thank-you to Mark Atterbury for managing the — *continued on page 2*

## 4TH ANNUAL "BOXERS @ BAXTER"

**Mike Lovejoy**  
RallyCross Chair

We had a great weekend with Boxers @ Baxter again this year! Things started off on Saturday, September 15th with a car show in Omaha at Baxter Subaru. Bryan Finochiaro's STI, Chris Dirkschneider's Impreza Coupe, Josue Aleman's STI Hatchback, and my STI were on display with the NRSCCA Trailer for fans to check out. It was great representing our club at the show and sharing information with people who wanted to know more about us. With over 400 people in attendance, it was a

fun way to connect with the community and spread the word about what the NRSCCA is doing. We also had Subaru Rally Team USA's Display, 3 Food Trucks, and giveaways for everyone there so it was a fun evening. It was unusually warm for mid-September, but with the sun setting behind us at the event, things cooled down through the day. Signed items from Subaru drivers Travis Passtrana and David Higgins, as well as other giveaways made their way to eager fans at the end of the event.

The next day, we headed to I-80 Speedway for our Rallycross Points #6 event. Along with our regular event equipment, we brought the SRT USA Trailer with another box of giveaways. Even with recent rain, the site had ample time to dry up before the event and conditions remained

photos by Mike Lovejoy

sunny and dry through the day. We had David Higgins #75 WRX STI rally car on display, but despite my best efforts, they wouldn't let us do a hot lap around the course with it. Lunch was provided by Baxter Subaru for drivers, workers,

and spectators who came out to watch the action unfold. Alex Reinkordt and I welcomed spectators to ride along with us during the event so they could get a taste of what it's like to race in the

dirt. I think we got a few of 'em hooked on it, so we'll hopefully have some more people joining us to race in the future!

Racing went pretty smoothly during the event with a challenging course making use of different features on the site to mix tight technical sections with long flowing lines. It can be tricky to design a long course with a limited space to work with, but we still managed 45-55 second runs through the event and 10 runs

each for all 22 competitors we had. After the midday break, we reversed the course and made a few more adjustments to mix things up. When the dust settled,

Alex Reinkordt had managed to put his '94 Subaru Legacy SS on top of the overall podium, which he has been working hard to dial in all season. It was a great way to close out the weekend and we're already looking forward to including rallycross again with the next Boxers @ Baxter event.

## CLUB RACING & TIME TRIALS AT RPM

**Kevin Kopecky**  
Club Racing Chair

On Saturday September 22nd and Sunday September 23rd, the NRSCCA along with the DMVR hosted a Club Race and Time Trial event at RPM near Pacific Junction, IA. The fall weather was amazing all weekend. This was the first event in our area on the 2018 schedule and it proved to be a good one. Car counts were solid on both the club racing side and the time trials side. Thanks to everyone that showed up to race and/or work. Your efforts are appreciated!

## STREET SURVIVAL

Saturday September 29 may not have been a great day for autocross, but it was perfect weather for the Street Survival teen driver school sponsored by Tire Rack, the BMW CCA foundation and the SCCA foundation. The cool misty rain kept the traction on the airpark surface to a minimum. Seven young drivers took to the classroom and driving exercise courses to improve their judgement, awareness and car control capabilities. The students participated in their daily cars. No Miatas or Corvettes to be found. Instead Fusions, Accords and Sables were the norm. Steve Ducharme and Andy Clark lead the morning and afternoon classroom sessions, while Chris Harris, Todd Reznicek, Matt McCabe and Andrew Taylor coached in the cars. The students practiced emergency braking, some experiencing the feel of anti-lock brakes for the first time. They then drove slaloms and emergency lane change maneuvers to gain understanding of weight transfer and it's effects. A skid pad was used to experience understeer and how to counteract it. They also got to experience the limited sight lines of a truck and trailer combination. The final exercise combined ABS braking and turning, allowing the students to see how truly remarkable modern car safety systems are.

At the end of the day, the students gave their parents rides through several elements of the class exercises. The parents were surprised at what the teens had learned in such a short time. It was fun to watch the students grow in smoothness and confidence as the day went on. A huge thank you goes out to Duncan Aviation for allowing us to use their conference room for the classroom presentations, as well as the National Guard Fire Department for wetting the skid pad (yes, we actually needed to wet it for the afternoon session). The school could not have happened without the efforts of the coaches. They offered up their Saturday to help the students gain skills in a safe environment that could make all the difference on the street. I think they would each say it was a very rewarding experience.
